American Made

Proudly made in the United States, this product reflects a commitment to quality craftsmanship and reliable standards our family supports.

Wholesale Pricing

Passing value on to our customers isn't just good business, it's a core part of our family values and the way we've always done things.

High Quality Components

Built with durable materials and advanced technology, so you get reliable, hassle-free performance you can count on.

High Efficiency, Salt-Based

Removes hard minerals like calcium and magnesium using minimal salt and water, giving you softer water while keeping operating costs low.

Where Family Values Meet Expert Water Treatment Service

Out of more than 3,500 plumbing companies in the Cincinnati area, we are the only one dedicated exclusively to water treatment - it's not just another service we offer. As a family-owned and operated business, we take pride in treating every customer like part of our extended family. With over 1,000 systems installed each year, we handle everything from helping you choose the right solution to installing, servicing, and maintaining your equipment long after it's in place.
