

COVID-19 UPDATE

We at, Ohio Valley Pure Water, are committed to the safety and health of our customers and staff. Majority of our customers have requested continued service as to ensure the quality of their water which is essential at this very difficult time. Many purchased drinking water systems for situations exactly like this one where they would not be forced to compete with others for bottled water purchases because they have the best quality of water on tap at their homes.

We would like you to know the following measures are being taken by us as a company:

- Temperatures are taken daily
- Sanitizing our hands and equipment before and after each home
- Wearing a new pair of gloves in each home
- We are not shaking hands and keeping distance where possible in the home

Requirement to qualify for scheduled maintenance- must respond “**NO**” to all of the following:

- *Is anyone in the home in self-quarantine?*
- *Does anyone in the home have a fever?*
- *Does anyone in the home exhibit symptoms of cough, respiratory illness, or runny nose?*

We appreciate you, thank you and we look forward to better times ahead
